LUBAN CABINETRY

TEN YEAR LIMITED WARRANTY (CABINETS)

Luban Cabinetry ("Luban") extends the following limited warranty on all cabinets manufactured and sold by Luban within the United States and Canada. This warranty does not cover cabinets sold or shipped outside of the United States and Canada. This Limited Warranty is only applicable to Products sold to the original purchasing consumer. Luban warrants that all cabinets purchased from Luban will be free from all unnatural defects in material and workmanship in accordance with Luban quality standards under normal residential use for 10 years from the date of the original purchase or as long as the original purchasing consumer owns the home in which such cabinets are installed, whichever is less. This warranty is non-transferable to subsequent owners of the home. Door hinges and all drawers glide system, including system hardware (lift system), however are warranted for only 5 year under normal residential use from the date of the original purchase.

THIS LIMITED WARRANTY IS SUBJECT TO ALL LIMITATIONS, EXCLUSIONS, DISCLAIMERS, AND PROCEDURES SET FORTH HEREIN.

The warranty does not cover special ordered products, defects caused by improper handling, storage, dirt, chemicals, abrasive or citrus cleaning products, installation, assembly or disassembly, transit or other intentional or negligent damage, product modifications, exposure to the extreme moisture, humidity or excessive heat or cold (temperature outside the range of 50-85°F and humidity outside the range of 30-55% are considered extreme), nor does it cover defects arising from normal wear and tear, misuse, neglect, accidents, alterations, improper use, exposure to improper loads, or failure to maintain properly. Any modification to the hardware structure or finish of the original consumer purchaser's cabinetry by anyone other than those specifically authorized by Luban to do so shall void this limited liability warranty. The product must be used exclusively for its intended purpose in order to be covered by this limited liability warranty. This limited liability warranty shall become void if the cabinets or any components or parts thereof are in any way modified, improperly installed or damaged prior to or during installation, or installed or used in other than normal residential applications.

Natural woods may vary in color, grain pattern, and characteristics and exhibit subtle changes as they age. Wood characteristics that naturally occur, such as variations in color, grain, mineral streaks and knots, are not considered defects. Luban will not be held responsible for these variations in your cabinetry. For example, painted doors, drawer fronts, and face frames may eventually have visible cracking around the joint area, and cabinet colors may darken or lighten over time. These conditions are considered a normal occurrence and are not included or covered by this limited liability warranty. A glazed finish by character is an uneven finish. Some edges and profiles will have heavier hang up than others and glazing may vary cabinet to cabinet, door to drawer and item to item. This may result in overall color variations but is not considered a defect. UV light, Sunlight, smoke, household cleaners, and other environmental conditions may also affect the color and integrity of the Product's finish or appearance over time. These variations are considered to be the nature of the material in relation to their environmental exposure and are not considered defects in material or workmanship and are not covered under this Limited Warranty.

Mitered door joints in particular are likely to react to conditions of their environment. Gaps that may develop in door joints due to conditions of their environment are not included or covered by this limited liability warranty. This limited liability warranty does not cover or apply to hairline cracks of cabinetry; hairline cracks are unavoidable in wood cabinets given the nature of the material. Every species and grade of solid wood behaves in such a way as to eventually result in hairline cracks.

Wood is wood and expansion and contraction still happen year after year as it compensates and adjusts to ever changing atmospheric humidity and temperature conditions. Observing shrink, expansion on center panels of doors is very common. It will return to its natural position within couple months once it has adjusted to seasonal changes. For the same reason, all door warpage greater than 1/2" will be warranted. Please remove all doors and check them on a flat surface for the above stated warpage before requesting replacement.

Warranty Performance. Luban periodically updates and makes changes to its product line and specifications. If a warranty claim is filed during the warranty period against obsolete or changed product and repair is not possible, Luban will, at its sole option, repair or replace the part under warranty with a new part of the same style or with a similar style currently offered and does not include or cover any other costs, including but not limited to any costs of service, labor, shipment, transportation, removal or installation related to the repair or replacement. Luban is not responsible for a replacement product that may not match the installed product exactly. If a manufacturing defect occurs within this limited liability warranty's terms and conditions and Luban determines to replace the defective cabinet or component or part thereof, Luban will ship the replacement cabinet or component or part thereof to the original consumer purchaser via ground shipper or freight carrier, at Luban's sole discretion.
